

Indicative Critical Component List

Laptop / Notebook / Tablet (IS 13252 Part-1)

Details of Critical Components used: Model Name (Specify) :					
Object/part No.	Manufacturer/ trademark	Type/model	Technical data	Standard (Edition / year)	Mark(s) of conformity ¹
External power supply unit (for EUT)					
Alternate (If Any)					
Building-in battery pack					
Alternate					
LCD/LED panel					
Alt.					
DC fan					
Alternate					
Hard Disk Drive (Optional)					

Alternate					
Solid State Drive (Optional)					
Alternate					
Optical drive (Optional)					
Alternate					
RTC battery **					
Alternate					
** - Circuit Protection Diagram need to be provided					
Power distribution switch (for USB ports)					
Alternate					
Poly switch (for HDMI port)					
Alternate					

Plastic Material List:

Enclosure (panel cover)					
Alternate					
Enclosure (panel bezel)					
Alternate					
Enclosure (Upper case)					
Alternate					
Enclosure (Lower case)					
Alternate					
All Secondary PCB					
Alternate					
Power Supply Cord set					
Cord					
Plug					
Connector					
Power Supply Cord set(Alternate)					
Cord					

Plug					
Connector					

Required Documents for Testing -

- 1) Sample with proper marking label (One sample for every lead model)
- 2) Circuit Diagram
- 3) List of Safety Critical Components [Final list will be subject to physical verification of sample]
- 4) Instruction & Service Manual
- 5) Transformer Details
- 6) Business License (Copy of Original + English Translated) [Skip it if you have given it for any previous model]
- 7) Trade Mark Certificate (Copy) [Skip it if you have given it for any previous model]
- 8) If Series inclusion then Declaration letter from the manufacturer.
