Guidelines for series approval of products for Laptop/Notebook/Tablet

Basic Configuration	Grouping as one series provided product has
Laptop Notebook Tablet Devices as 3 combination of above products	 Same voltage and current rating. Same PCB layout. Power Adaptor. (Alternate models of power adaptor may be evaluated as part of the main product.) Same enclosure except for differences of decoration parts. Battery to be treated as component (Alternate sources of battery may be evaluated as part of the main product.)

Guidelines for Quantitative Selection of Samples

- A series may consist of 10 models.
- Unless specified otherwise, one sample may be tested for each series.
- In any of the above consideration, worst case configuration from Safety Design perspective must be selected for testing.
